

## Vitruvius Yachts 'Galileo G' winner at Showboats Design Awards 2012

Following on from our success at last year's Showboats Design Awards we are delighted to announce that Vitruvius Yachts is once again a winner. 'Galileo G' a 55m Vitruvius explorer built to ice-class standards and designed for extreme exploration won the prestigious 'Exterior Design & Styling Award: Displacement Motor Yachts 100'-199'.

Galileo G is the second yacht in the Vitruvius series, designed by Philippe Briand and built by the Perini Navi Group's Picchiotti shipyard to win this award at the annual event. Exuma, the first motor yacht in this ground-breaking series won many awards in 2011 and has enjoyed great success due to her striking design.

The 73m hull of a third Vitruvius motoryacht was recently delivered to Pichiotti after construction completed at the Perini Yildiz shipyard in Istanbul. The yacht is scheduled for delivery in 2013.

The continued success of the Vitruvius yachts highlights the influential position of the series in the motor yacht market with further projects under contract to be announced soon. For further information on Vitruvius projects please refer to the website [www.vitruviusyachts.com](http://www.vitruviusyachts.com) or contact:
